**WOOD DUCKS**

**RICHARD PLASSCHAERT**

Dick Plasschaert's wildlife art career took off after his entry of "Two Mallards In Flight" was selected as the 1980-81 Federal Duck Stamp design.

Overnight he joined the ranks of America's top wildlife artists. Plasschaert likes to say that it took him twenty years to become an overnight success.

In addition to the 1980-81 Federal Stamp, he was chosen as the artist for the "first" North Dakota Duck Stamp, the "first" North Carolina Duck Stamp, the "first" New Hampshire Duck Stamp, the "first" Minnesota Conservation Federation Stamp and Print, the Louisiana Turkey Stamp and the National Turkey Stamp. Richard has also designed seven other Conservation stamps and the 1988 New York Duck Stamp.

New Jersey, through an act of the State Legislature, began annually using waterfowl stamps in 1984. The program is administered by the New Jersey Department of Environmental Protection, Division of Fish, Game and Wildlife for the purpose of purchasing wetlands for waterfowl habitat. Proceeds from the

sale of New Jersey's Duck Stamps and Prints total over \$1,900,000.00 all to acquire wetland for waterfowl habitat and public use. To date, over 5,500 acres of waterfowl habitat have been purchased or donated.

Limited Edition, signed and numbered prints of the seventh New Jersey Waterfowl stamp may be purchased from art dealers. To find the dealer nearest you, contact the publisher, MIDWEST MARKETING, Sullivan, IL 61951, telephone (toll-free) 1-800-382-5723.

Each print includes a resident and non-resident stamp and sells for \$142.50. Prints of New Jersey's first waterfowl stamp were originally offered at the same price; today they are selling in the secondary market for considerably more than that.

If you invest in these beautiful pieces of wildlife art, you will make a contribution towards conserving and acquiring wetlands and waterfowl habitat. Think about it; by purchasing a limited edition waterfowl print or waterfowl stamps, you can help insure the future of New Jersey's waterfowl populations.
